

SALTY

GET IN THE WATER

Quick Start Guide

Surf with your friends, not your feed.

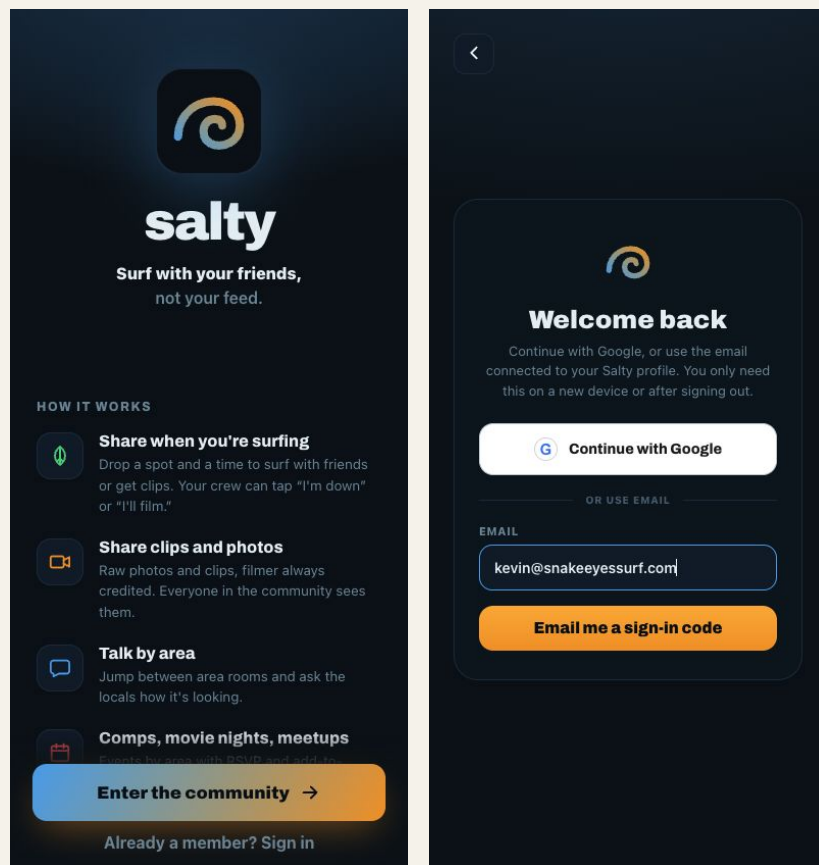

START HERE

1. Open your private invite link
2. Sign in and finish your profile
3. Add Salty to your Home Screen

FIRST TIME

Get in.

Salty is invite-only. Open the private link someone from the crew sends you, then sign in.

1

Open the invite
Tap Enter the community.

2

Sign in
Google is easiest. Email works too - use
the newest sign-in code.

Build your profile.

Add enough info that your crew knows who you are and where you normally surf. Then install Salty.

Build your profile
Finish this once, then Salty keeps you signed in on this phone.

PROFILE PHOTO
Required - JPG, PNG or WebP - 8 MB max

NAME
Cyrus

NICKNAME optional
Cy

PHONE
(949) 555-0128

HOME AREA
California

SPONSORS optional - separate with commas
Independent

INSTAGRAM OR SOCIAL LINK optional
instagram.com/saltyviewfinder

Add Salty to your Home Screen
Install only after signing in. Then the Salty icon opens straight back into the community on this phone.

1. Stay on this signed-in Salty screen.
2. Open your browser menu and choose "Install app" or "Add to Home Screen."
3. Confirm the installation, then open Salty from its icon.

Install Salty

I'll do this later

1

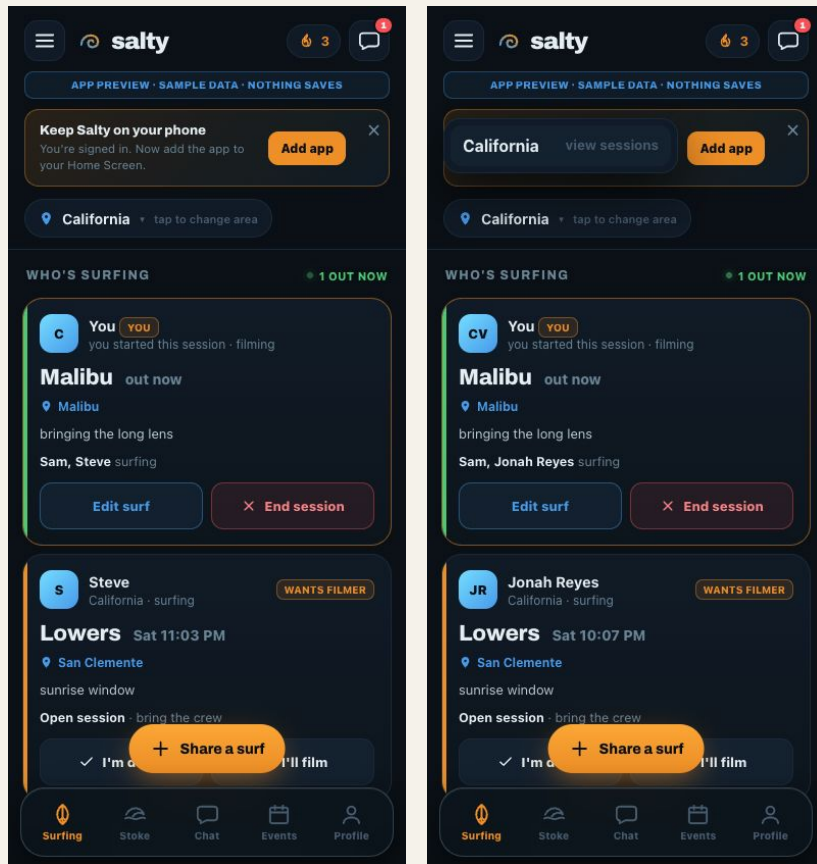

Finish your profile
Add your photo, name, home area and whatever social info you want to share.

2

Install after signing in
Use Salty's install prompt so the Home Screen icon opens into your signed-in community.

See who's surfing.

Surfing is the home screen: see who's out, change areas, join a session, offer to film, or post your own.

1

Start on Surfing
Sessions show the spot, general area, timing, who's going and whether someone wants a filmer.

2

Change areas
Tap the location pill at the top whenever you want to see another region.

MAKE A PLAN

Share a surf.

Post for right now or plan ahead. Keep the location broad - Salty does not need a secret pin or exact takeoff spot.

through the scheduled surf.

SPOT NAME

Old Man's

GENERAL LOCATION

San Onofre

The broader map area—not a secret pin or exact takeoff spot.

Surfing Stoke Chat Events Profile

- 1 Fill out the plan
Spot + general location are required.
Choose Now or a time, then Surf or Film.

- 2 Make it useful
Add friends, turn on Want a filmer?
when you want clips, and leave a quick
note if needed.

Drop the stoke.

Stoke is the community-wide photo and clip feed. This is where footage belongs.

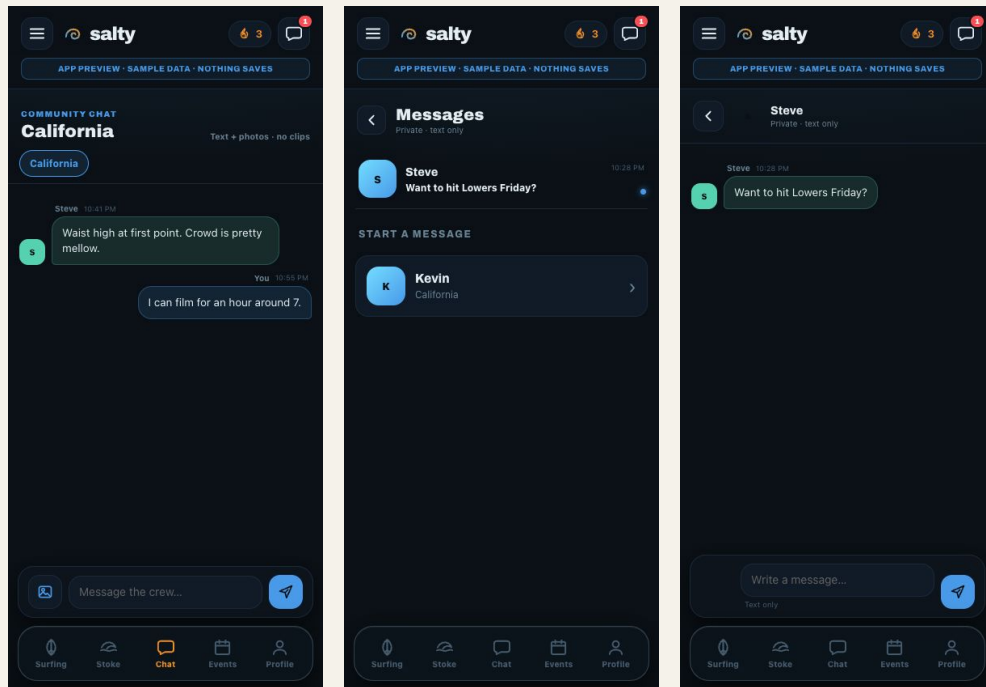

- 1 Everyone sees Stoke
Stoke crosses regions, so footage is not buried inside a local chat.

- 2 Credit the filmer
Filmer credit is required. Current clips are limited to 90 seconds and 50 MB.

Talk to the crew.

Use Community Chat for the local crew. Use DMs when the conversation only needs one person.

1

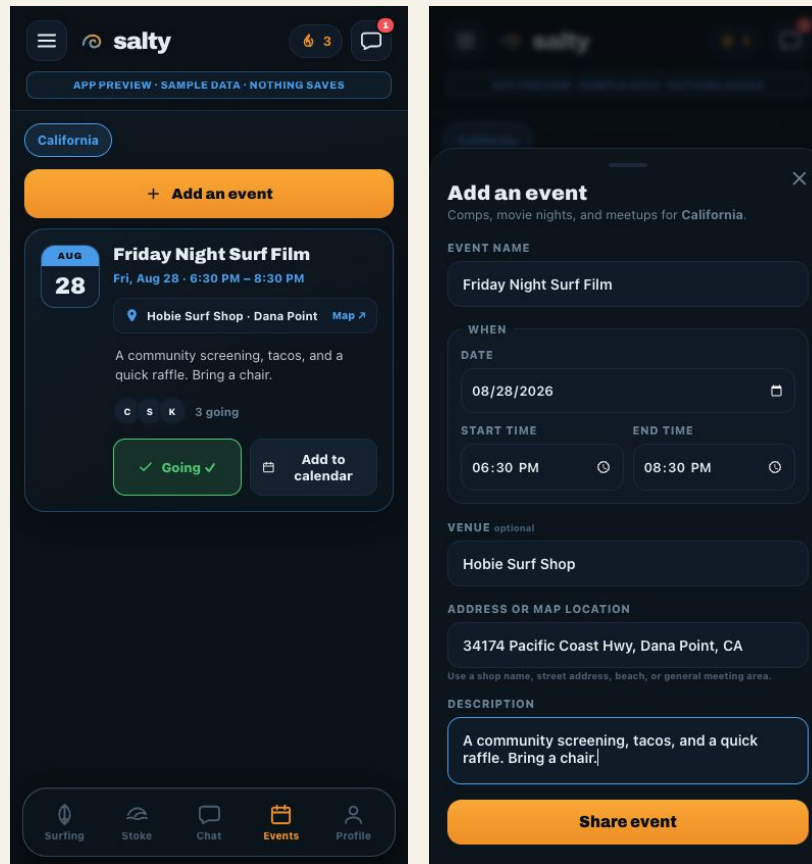

Community Chat
Regional rooms support text + photos.
Video clips stay in Stoke.

2

Direct messages
DMs are private and text-only. Use
them for quick one-to-one coordination.

Make things happen.

Comps, premieres, movie nights and meetups live in Events, organized by area.

1

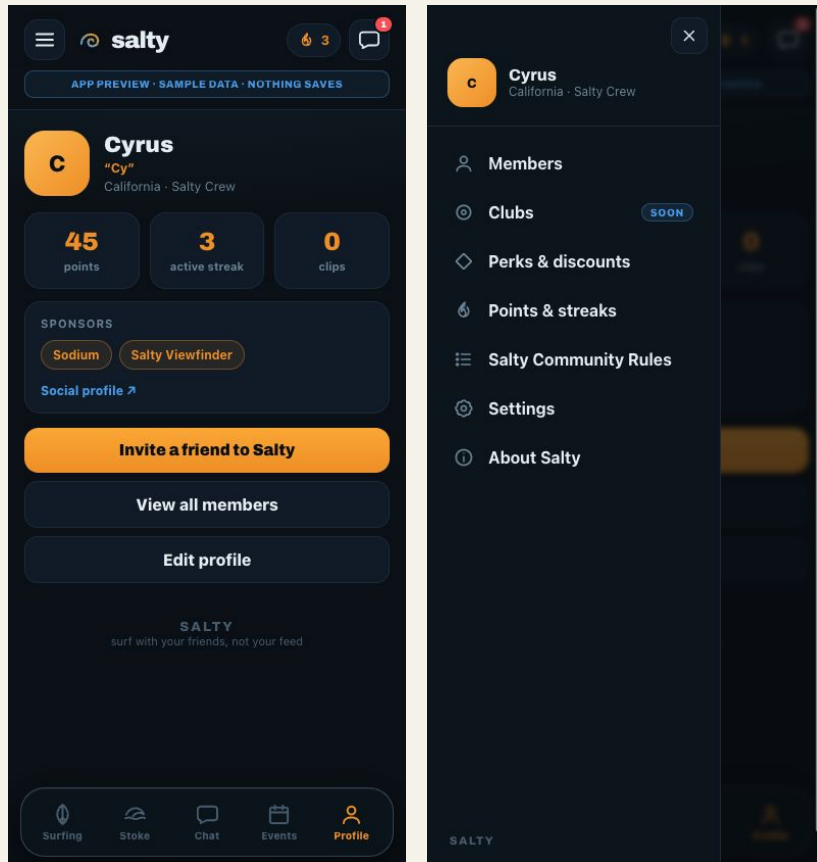

Find + RSVP
Open the relevant region, RSVP, and add the event to your calendar.

2

Post an event
Add the name, date, start/end time, map location and a short description.

Your profile + the menu.

Your profile shows your participation. The side menu holds the community tools that do not need to clutter the main feed.

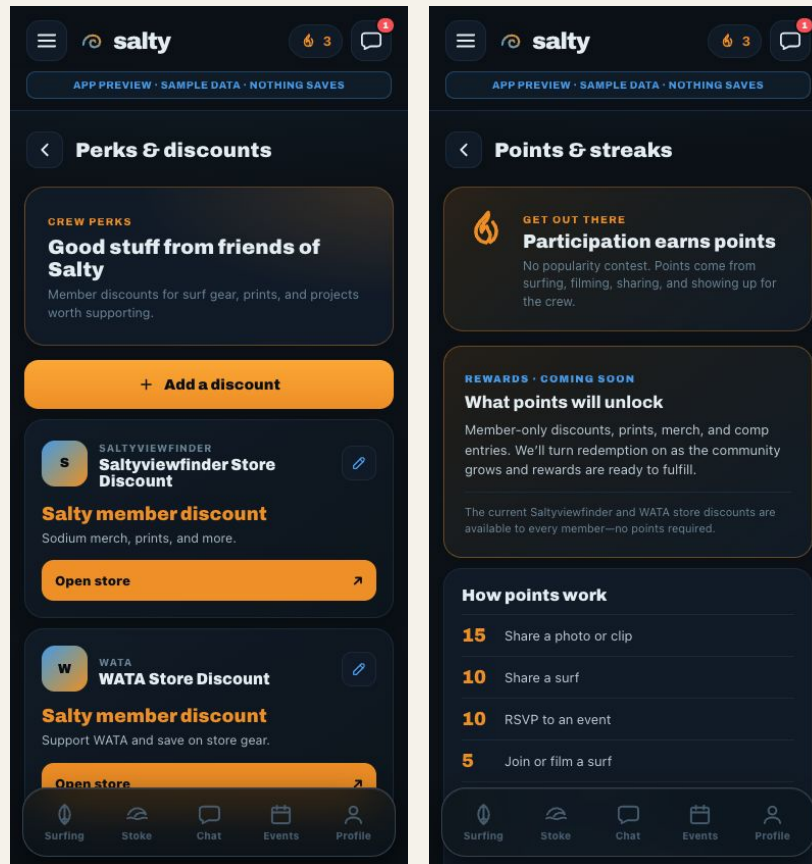

- 1** Your profile
See points, active streak, clips, sponsors, members and edit controls.

- 2** Side menu
Members, Perks, Points, Rules, Settings and About all live here.

Perks + participation.

Salty rewards doing things with the crew, not collecting followers or scrolling.

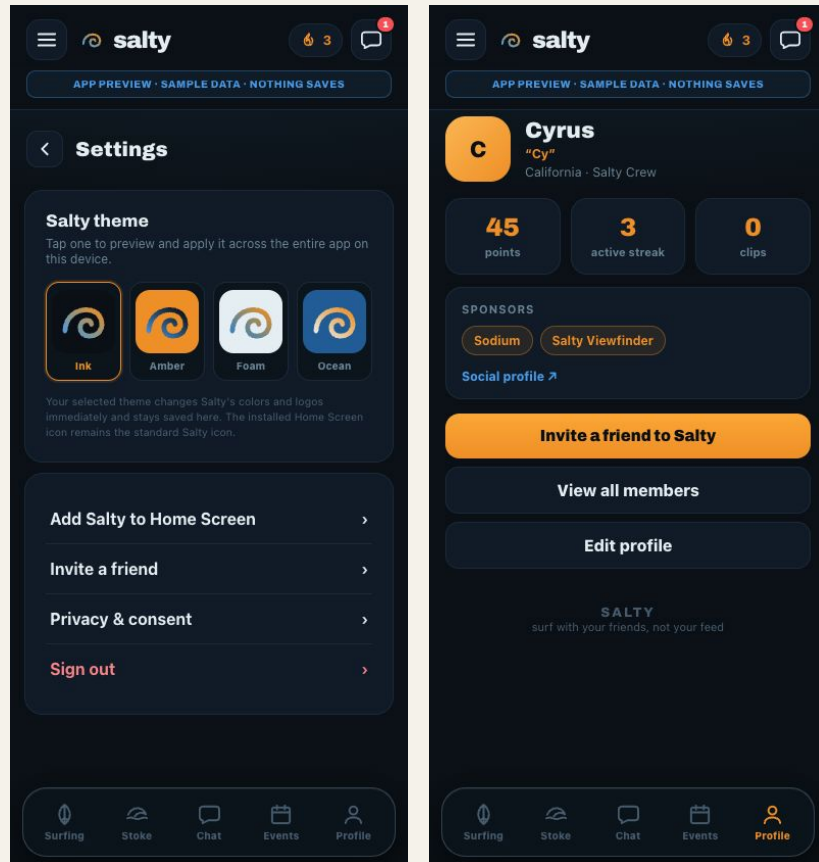

- 1 Perks
Member discounts and offers from friends of Salty live here.

- 2 Points + streaks
Surfing, filming, sharing and showing up earn points. The streak tracks active days.

Settings + invites.

Settings handles your Salty theme, installation, privacy and sign-out. Invitations are how the community grows.

- 1 Settings
Change the theme, install Salty, review privacy & consent, or sign out.

- 2 Invite a friend
Invite people you actually surf with. Salty is private and invite-only on purpose.

Break it.

You're testing the app, not your ability to use it. If something feels confusing, slow, broken, or weird, that is useful feedback.

- 1 Take a screenshot.**
- 2 Say what you were trying to do.**
- 3 Say what you tapped right before it happened.**
- 4 Tell Cyrus what phone/browser you were using.**

Post a surf. Join one. Drop a clip. Talk some shit. Go surfing.

app.saltyviewfinder.com

Private - invite-only - built for the crew.
